

AppSolute Services Overview

AppSolute offers a range of services across three core divisions. Each is designed to make technology accessible, practical, and impactful — whether you're a professional, a young learner, or an organisation looking to build custom solutions.

1. AppSolute (General) – AI & Tech for Professionals

We help individuals, teams, and organisations integrate cutting-edge AI tools into their daily workflows to boost productivity, creativity, and digital skills. We do this by producing

1.1 AI Tools Training

- Learn how to use AI for content writing, graphics, and video creation. Check out our YouTube channel (<https://www.youtube.com/@appsolutehub>)
- Hands-on guidance on using tools like ChatGPT, Canva AI, and more. Check out our YouTube channel (<https://www.youtube.com/@appsolutehub>)

1.2 Content & Marketing Support

- Leverage AI to generate social media content, email campaigns, and blog posts. Check out our YouTube channel (<https://www.youtube.com/@appsolutehub>)
- Enhance SEO, A/B testing, and analytics with AI-powered strategies. Check out our YouTube channel (<https://www.youtube.com/@appsolutehub>)

1.3 Consultations & Workshops

- Book a 1-on-1 session to learn how to apply AI in your context. Email us at appsolutehub@gmail.com for more.
- Request custom guides and demo sessions. Email us at appsolutehub@gmail.com for more.

2. AppSolute Kids – Tech Education for Young Learners

A fun and interactive educational division focused on helping children build 21st-century skills using technology, STEM, and hands-on learning.

2.1 Video Learning

- Watch engaging video tutorials on electronics, robotics, and coding. Check out our YouTube channel (https://www.youtube.com/@Appsolute_Kids)
- Beginner-friendly, fun and designed for different age groups.

- Regularly updated with new and trending topics.

2.2 DIY Tech Projects
